You can view your response rate by logging into Digital Measures from the following link. Please contact Katie Schuler, schulerk5@nku.edu or at x1334 for any questions. [https://access.nku.edu/sacsei/login.php](https://access.nku.edu/sacsei/login.php)

You will need to use your NKU USERID and PASSWORD to log in.

Once in Digital Measures, on the left hand menu select "View Respondents." Please be aware of the effective dates for the specific Instruments:

- **Course Evaluation – NKU** - Summer 2013 – present
- **Course Evaluation – University (on campus courses)** - Summer 2010 - Spring 2013
- **Course Evaluation – University, Online (online courses)** - Summer 2010 – Spring 2013

Once you select the Instrument for which you are associated with, you must then hit "Select Instrument"
View Respondents

You will then need to select the “Term” and then hit “View”. This will bring up the courses associated with the selected Term.

If you are teaching multiple courses, you will also need to select the course you would like to view your response rate and then “View”:

If you are looking for course evaluation reports prior to Summer 2010 you will need to go to the evaluation web site at: http://eval.nku.edu.
View Respondents

On the left menu you will see “Faculty – OLD Login (2006 through Spring 2010).”

This will take you to a different log in screen that looks like this:

This is the “Web-based: Instructor Evaluations” reports pulled from BW so the reports look much different than those in Digital Measures. Also, there is no way to View respondents for the previous 2006-2010 evaluations.
